ARMSTRONG

Vertical Multistage Pump

Vertical non-self priming centrifugal pump

Features:

- Vertical multistage non-self priming pumps are designed for various media, ranging from tap water to industrial liquids at different temperatures, flow rates and pressures.
- vms units are suitable for non-corrosive liquids while vms-s units are suitable for slightly corrosive liquids.

Applications:

- · Pressure boosting.
- Municipal water supply.
- · Water treatment plants.
- · Ro systems.
- · Irrigation.
- · Fire fighting applications.

Technical data:

- Flow: 0.5 to 110 m³/hr
- · Head: up to 225 meters
- Rated voltage: 230V/400V
- . Liquid temperature: -15°C to 110°C
- · Material of construction: All wetted parts stainless steel 1.4301 / AISI 304

vms performance range:
